

3D Printing Linecard

We take **3D printing** seriously.

At M. Holland, innovation is at the heart of everything we do. In the spirit of continuously improving our offering, we are excited to provide materials that support the evolution of 3D printing as a manufacturing tool.

No longer the domain of modelers and hobbyists, 3D printing now offers cost-effective and innovative ways for manufacturers to rapidly prototype and create end-use products at lower cost.

We believe that as 3D printing technology matures, the category will continue its expansion into multiple industries and applications, revolutionizing how products are brought to market. That's why we're continuing to invest in top-quality materials and application development expertise that can maximize its potential for our clients.

Our 3D Printing Suppliers

XSTRAND™

GF30-PA6 (Black, 30% Glass Filled)
GF30-PP (Black, 30% Glass Filled)

We create chemistry

Standard Filaments

ABS (Natural White, Black, Red, Silver, Natural)
EPR InnoPET (Black, Clear, White)
PLA (Black, Blue, Red, Silver, White)

Flexible Filaments

Innoflex FL45 (Black)
Innoflex FL60 (Natural)

Professional Series

PRO1 (Natural, Black)
PP (Natural)
CF-HT-PA (Black, Carbon Fiber)
CF-PET (Black, Carbon Fiber)

Water Soluble Support Material

Carbon Fiber Reinforced Materials

CarbonX®
CF-ABS (Black)
CF-PA6 (Black)
CF-PC (Black)
CF-PEEK (Black)
CF-PEI (Black)
CF-PEKK (Black)
CF-PETG (Black)
CF-PLA (Black)

High Performance Materials

3DXMAX®
ASA (Black)
PC/ABS (Black)
PC/ASA (White)
3DXFLEX™
TPC 88A (Black)
TPC 92A (Black)
PA6 (White, Black)
Ultem™
PEI 1010 (Black)
PEI 9085 (Black)
MAX-G™ PETG (Black, Natural)

Support Materials

HTS (Natural)
HIPS (Natural)

Fire Retardant Materials

FIREWIRE®
FR-ABS (Black)
FR-PPS (Natural)
FR-PPSU (Natural)
FR-PSU (Natural)

Electrostatic Discharge

Safe Materials

3DXSTAT™
ESD-ABS (Black)
ESD-PC (Black)
ESD-PETG (Black)
ESD-PLA (Black)
ESD-PVDF (Black)
