

Healthcare Packaging Line Card

We take **healthcare packaging** personally.

Medical device and pharmaceutical packaging regulations and sustainability demands are rapidly changing. M. Holland leverages more than 30 years of packaging experience with deep expertise in medical device development to help provide safe packaging solutions with an eye toward sustainability.

We work with a variety of process techniques such as film production, blow and injection molding, compression blow forming, thermoforming, and extrusion to deliver optimized medical packaging solutions for today's complex needs.

Our dedicated engineers and packaging specialists can guide optimal resin selection to meet regulatory requirements and achieve high performance. We offer access to new technologies, custom compounding solutions and consultation for integrated, end-to-end solutions that offer supply chain security.

To learn more about what M. Holland can do for you, visit mholland.com or call +1 800-872-7370.

Our Healthcare Packaging Suppliers

CHEVRON PHILLIPS CHEMICAL

Marlex®
HDPE, HMW, LDPE, LLDPE,
Metallocene LLDPE

HANWHA

EVA

INEOS STYROLUTION

MABS–Terlux®
MBS–Clearblend®, Zylar®
PS–GPPS, HIPS
SAN–Lustran®
SBC–K-Resin®, Styroflex®, Styrolux®
SMMA–NAS®

INVISTA

Polypropylene
Homopolymer,
Impact Copolymer,
Random Copolymer

LYONDELLBASELL

Purell Polyethylene
HDPE, HMW, LDPE, LLDPE
Pro-fax Polypropylene
Homopolymer,
Impact Copolymer,
Random Copolymer

PLASKOLITE

OPTIX® PMMA
Acrylic Resins

TOTALENERGIES

Polypropylene
Homopolymer,
Impact Copolymer,
Random Copolymer

M. HOLLAND

MH Resolute™
Mtegrity™ Plus

PLASKOLITE
